PortaOne is a leading VoIP software developer and vendor.

PortaOne enables Internet telephony service providers and carriers to quickly launch and efficiently manage a wide range of solutions for modern telecom services.

Software for Carriers & ITSP

PortaOne all-in-one solutions enable carriers, ISPs, and Internet Telephony Service Providers (ITSP) to expand revenue opportunities with a single software platform

- Modern telephony services for SMB offices: Hosted IP PBX

- Telecommunication services for business customers: IP Centrex

- Conferencing services: up to 40 callers in a virtual room

- Callshop services: solution for integrated call shop networks

- Application Service Providers: partition & rent out your system

- Wholesale traffic exchange: NexTone compatible

- SIP trunking: solution for large business clients

- Residential services: Vonage-like & Skype-like

- International prepaid calling cards services

- Callback solutions and triggers: web, email, SMS, ANI/DNIS

- IPTV: full triple play solution
